

FHO Transition Checklist

Looking to Join a FHO?

At DoctorCare, we support approximately 25% of all FHOs in Ontario and have helped many physicians transition successfully to a FHO over the past few months since the Physician Services Agreement came into effect.

Here's a checklist of our FHO transition process that we complete on your behalf:

- Complete the physician's Expression of Interest (EOI).
- Compile and complete a Business Case (if applicable) for the FHO and each physician looking to join.
- Submit both the EOI and Business Case to the Ministry.
- Correspond and monitor the application process.
- Complete a commencement binder and corresponding requirements, MOH required paperwork and create a FHO Governance Agreement.
- Set up a group bank account.
- Submit a FHO application on behalf of the FHO group.
- Set up and manage the groups after hours schedule.
- Set up FHO group's systems for billing.

DoctorCare can support you in your transition to a FHO. Our expertise in practice optimization will guarantee that your practice captures its revenue potential and that you are being compensated for the care that you provide.
